ACCOMACK-NORTHAMPTON PLANNING DISTRICT COMMISSION
MINUTES OF THE
October 19, 2026 Meeting
ENTERPRISE BUILDING
ACCOMAC, VIRGINIA

COMMISSIONERS PRESENT:

Robert Crockett	Accomack County
L. Dixon Leatherbury	Northampton County
Rev. Charles J. Kellam	Northampton County
Betsy Mapp	Northampton County
Vanessa Johnson	Accomack County
Calvin Washington	Accomack County
Gwendolyn F. Turner	Accomack County
C. Reneta Major	Accomack County
Donna Smith	Accomack County
Mike Tolbert	Town of Chincoteague
David "Jon" Dempster	Northampton County

COMMISSIONERS ABSENT:

Adam Charney	Northampton County
Donald L. Hart, Jr.	Accomack County

OTHERS PRESENT:

Sandy Taylor	Russ Williams
Eric Horito	Anne Doyle
Faith Lewis	Myra Riley Taylor
Elaine Meil	Anthony Sharpe

1. Call to Order
   The October 19, 2026 meeting of the Accomack-Northampton Planning District Commission (A-NPDC) was called to order by Chairman Mapp at 7:03 p.m.

2. Invocation
   Commissioner Johnson offered the Invocation.

3. Minutes of the September 21, 2026 Meeting
   The minutes of the September 21, 2026 Meeting were presented. Commissioner Major moved to approve the minutes as presented. It was seconded by Commissioner Turner, the motion was carried by unanimous vote. There were two abstentions.

4. Financial Status Report

The Report for Expenditures for September is unable to be printed until FY26 has been closed in the GMS accounting software. Updated reports will be presented at the November meeting.

Auditors from Dunham, Aukamp, & Rhodes, PLC visited the A-NPDC office on Tuesday, October 6th and Wednesday, October 7th.

No action is needed at this time.

5. Financial Statement / Bills Payable

The Financial Statement, including the current Bills Payable, were presented. Commission approval of the Financial Statement and current Bills Payable were requested.

Commissioner Crockett moved to approve the Financial Statement and Bills Payable. It was seconded by Commissioner Major, the motion was carried by unanimous vote.

6. Projects

Director of Planning Report

Below is a comprehensive list of Planning Department projects, should you wish to contact the project manager for more information. Details about featured projects follow the list.

3220 - Economic Development Admin. - Economic Development Planning	S. Dudas
3071 - FAA College Initiative & Talent Pipeline with ESCC	A. Doyle
3640 - VA Department of Forestry Planning/Planting Grant	S. Dudas
3593 - DEQ Regional Water Supply Plan	R. Chandler
3547 - DEQ/CZM Technical Assistance & Resiliency Planning	R. Chandler
3675 - FHWA BUILD Grant for ESRT	A. Doyle
3589 - VDEM Hazard Mitigation Plan 2026	R. Chandler
3587 - Navigable Waterways Committee	K. Singleton
3353 - Waterway Dredging Northampton County - Nassawadox Creek Phase 1	K. Singleton
3352 - Waterway Dredging Accomack County - Folly Creek Phase 1	K. Singleton
3581 - Coastal Adaptation and Resilience Plan	S. Dudas
3354 - Dredge Material Management Initiative	S. Dudas/K. Singleton
3571 - A-N Ground Water Committee Projects	R. Chandler
3401 - VDOT Rural Transportation Plan	H. Spurlock
3218 - FHWA Safety Action Plan - Safe Streets for All Program	H. Spurlock
3620 - Delmarva Agricultural Community Resilience Project	S. Dudas
3201 - VDACS Agriculture & Forestry Industry Development Plan	S. Dudas
3010 - VBAF Assessment Grants	S. Dudas
3339 - Exmore Comprehensive Plan Update	A. Doyle

3220 Economic Development Admin/Economic Development Planning — Sherry Dudas

Federal funding through the Department of Commerce/Economic Development Administration was awarded as of July 6, 2026, and staff reconvened the ESVA Economic Development Committee (EDC) to prepare performing the region's economic development work in several key areas: providing grant writing support to local, county, and regional agencies, staffing and coordinating meetings for the region's only EDC, and performing specific task work on the region's Comprehensive Economic Development Strategy (CEDS). Volunteers for subcommittees are being formed for the sectors of Visitor Services, Aquaculture/Agriculture, Forestry/Timber, Aerospace, and Health Care are sought. An RFP was issued for economic consulting services for assistance with the CEDS, eight proposals were submitted, a Selection Committee was formed and shortlisted the eight proposals to three. Interviews were conducted with the three firms, and negotiations are continuing with the first of the ranked firms. In addition, on the grant side, staff prepared, submitted and was awarded two Virginia Brownfields Assistance Fund grants on October 17, 2025, and prepared and submitted closing documents for the first completed Brownfields project (Elliott Automotive). Staff also assisted a funding application for the Aerospace Academy of the Eastern Shore's junior and senior high school curriculum.

3071 FAA College Initiative & Talent Pipeline with ESCC — Anne Doyle

A-NPDC is administering this $788,700, two-year Virginia Growth and Opportunity Act (GO Virginia) grant. Coursework as part of the UAS workforce program has begun at the Eastern Shore Community College. 45 students are enrolled. The Federal Veteran's Administration has disallowed the GI Bill to be used for the online coursework. This will negatively impact the popular Cybersecurity credentialed courses.

3640 VA Department of Forestry Planning/Planting Grant — Sherry Dudas

This $90,000 grant is being used to plant native plants along the Treherneville/Birdsnest sections of the Eastern Shore Rail Trail, by a qualified landscape contractor using biochar as a soil amendment. Biochar has been donated by VDOF. A-NPDC staff is providing educational outreach to the community with a dedicated page on its website devoted to the project for public education regarding the benefits of planting native species, providing a species list & their history on the Eastern Shore, and the benefits of using biochar in tree plantings. Bids are currently being accepted for the planting project.

3593 DEQ Regional Water Supply Plan — Rita Chandler

Grant applications for FY27 were submitted August 14, 2026 for the anticipated award amount of $39,240 to be disbursed within FY2027. Work continues with research and analysis for the plan update.

3547 DEQ/CZM Technical Assistance & Resiliency Planning — Rita Chandler

Work continues to update the A-NPDC website. The next round of the Shore Strong project is in the planning stages now pending identification of the next location. Local high school

participants are being considered as a means of gathering perspective from younger people. A locality meeting and training was held on September 3rd at the ESCC with guest speakers Maura Christian and Heather Mackey who reviewed the Chesapeake Bay Preservation Act Guidelines, Lucas Manweiler from DEQ who reviewed Public Access Resiliency funding, and Lynne Keenan and Dov Marin from Kimley-Horn who reviewed survey results for the Coastal Adaptation and Resiliency Plan. The next leadership meeting is tentatively scheduled for December 10, 2026.

3675 BUILD Eastern Shore Rail Trail Project Anne Doyle

30% Design Plans are on schedule to be submitted to FHWA on November 17, 2026. FHWA has 30 days to review and approve the plans. Environmental reporting work is complete and will also be submitted to FHWA in November. A Categorical Exclusion determination by FHWA is still anticipated. The BUILD project work that will benefit both US-13 and the ESRT roadway. Staff is continuing to work with STAR Transit to strategically place bus stops, including shelters paid for and provided by STAR Transit, in locations that marry the ESRT with bus routes.

3589 VDEM Hazard Mitigation Plan 2026 Rita Chandler

All comments and revisions to the draft update of the Hazard Mitigation Plan have been addressed and submitted to FEMA. FEMA has provided final review and comments which will be updated before the end of the federal fiscal year in September. The final step will be for each locality to approve and certify the final plan. The project is on track for an on-time, on-budget completion.

3587 Eastern Shore Regional Navigable Waterways Committee (ESRNWC) Kellen Singleton

The Eastern Shore Regional Navigable Waterways Committee is scheduled to hold its fourth quarterly meeting of CY2026 on October 15, 2026. Work since the August meeting has focused on advancing active dredging and beneficial-use projects, regional waterway prioritization, and coordination with state and federal partners. Nassawadox Creek has moved further into permit review and final design: VMRC has initiated public-interest review, adjacent-property-owner information has been submitted, public notice has been initiated, and Moffatt & Nichol has delivered 90% construction drawings, specifications, a Basis of Design, and an Opinion of Probable Construction Cost for the dredging and Tangier Island beach-placement project.

For Folly Creek, staff and project partners are advancing habitat-driven beneficial-use planning and baseline data collection with DWR and VIMS, including wetland conditions, elevations, placement thickness, habitat considerations, and monitoring needs. ESRNWC 10.15.2026_Draft Agenda The Committee will also review Kimley-Horn's DMMI prioritization framework covering 28 Eastern Shore waterways and provide input before the initial top-ten priority list is finalized. ESRNWC 10.15.2026_Draft Agenda Staff continue general coordination on regional aids-to-navigation and navigation safety issues. The next quarterly ESRNWC meeting is scheduled for January 21, 2027.

3353 Waterway Dredging NH County - Nassawadox Creek Phase 1 Kellen Singleton

The Nassawadox Creek Phase 1B dredging and Tangier Island beneficial-use project continues through state and federal permit review. USACE is reviewing the project under NAO-2007-02923 and VMRC under Permit #2026-1725. VMRC has initiated public-interest review, including adjacent-property-owner coordination and newspaper public notice. Moffatt & Nichol delivered 90% construction drawings and specifications on September 10, followed by the Basis of Design and Opinion of Probable Construction Cost on September 23. The project proposes dredging approximately 24,200 cubic yards neat-line, with up to 32,000 cubic yards within the paid dredging template, and beneficially using 100% of the material as beach fill along approximately 950 feet of Tangier Island shoreline south of the airport. Staff are reviewing the 90% documents and construction estimate, coordinating with Tangier and regulatory agencies, and preparing for contractor outreach as permitting progresses.

3352 Waterway Dredging Accomack County - Folly Creek Phase 1 Kellen Singleton

Folly Creek Phase 1B continues under the $1 million VMRC Waterway Maintenance Fund award and executed a VMRC–A-NPDC Memorandum of Understanding. Current work is focused on advancing the beneficial-use component and collecting the technical information needed to move the project toward implementation. Following the August ESRNWC meeting, staff and Moffatt & Nichol began working with the Virginia Department of Wildlife Resources and the Chesapeake Bay National Estuarine Research Reserve in Virginia at VIMS on habitat-driven design and baseline data collection for potential marsh placement. Work includes wetland conditions, water levels, placement elevations and thickness, habitat considerations, monitoring, and future geotechnical and survey needs. Staff are evaluating fieldwork approaches involving VIMS and DWR and coordinating with DWR and VMRC on survey equipment that could be supported through the Waterway Maintenance Fund award. Near-term work will finalize the baseline data collection plan, select the fieldwork approach, and begin owner and agency coordination for candidate placement sites.

3581 Coastal Adaptation and Resilience Plan Sherry Dudas

The project was reactivated once VRA agreed to reimburse the A-NPDC for funds expended. A consulting firm has been hired to prepare the Coastal Adaptation and Resilience Plan that includes staff-coordinated public outreach incorporation. The plan is expected to be completed in 2027 and will include 3 concept plans, 2 of which will incorporate dredged materials.

3354 Dredge Material Management Initiative Sherry Dudas/Kellen Singleton

The Eastern Shore Dredged Material Management Initiative continues to move from regional inventory and stakeholder engagement into waterway prioritization, field characterization, and project development. The regional Waterways Maintenance Survey closed September 1, and Kimley-Horn has incorporated the results into a decision framework evaluating 28 Eastern Shore channels using navigation, public access, economic activity, maintenance history, aquaculture, fisheries, and other supporting information. The project team continues refining the prioritization criteria and framework, which will be presented to ESRNWC for input before the top-ten priority list is finalized. A-NPDC also issued the Waterway Characterization Services RFP (ANPDC-DMMI-WC-2026-01/eVA RFP-127498) in September for hydrographic/bathymetric

survey, sediment sampling and characterization, and integrated technical services. The initial effort is expected to cover up to ten waterways through task orders, with proposals due October 16, 2026. The characterization work will provide the field data needed to move priority waterways from regional screening toward permitting, beneficial-use evaluation, engineering, and future funding decisions.

3571 Acck/NH Ground Water Committee Projects Rita Chandler

The Groundwater Committee will meet on October 20 and will review research needs and solidify plans for the coming year. The session will further develop and prioritize project planning for FY27. One priority candidate is the USGS Installation, Operation and Maintenance of a Subsidence Monitoring Network across the Eastern Shore. For this initiative, USGS has completed a project plan and cost estimate that is currently under review by the Groundwater Committee.

3401 VDOT Rural Transportation Plan Anne Doyle

The FY 2027 Rural Work Program is underway and includes development of the Arterial Management Plan for the Eastern Shore, including the secondary routes off of US-13. VDOT has requested staff to compile freight data for the region that will be integrated with statewide data. Finally, A-NPDC staff has submitted the agency's Title VI Plan to comply with a VDOT audit. The updated Plan must comply with new federal executive orders as well as state regulatory changes.

3218 Safety Action Plan - USDOT Safe Streets for All Program Harvey Spurlock

The Safety Action Plan is complete. The requisite final report has been submitted to the Federal Highway Administration. Final requests for reimbursement are being processed and submitted. Submission of Safety Action Implementation grant applications will be considered for the next program cycle.

3620 Delmarva Agricultural Community Resilience Project Sherry Dudas

This project, led by Virginia Tech and NOAA, is developing a regional collaborative of local and regional governments and extension organizations in rural areas of coastal Virginia, Maryland, and Delaware with the goal to build enduring capacity for planning and implementation of community supported risk reduction efforts that engage the strengths and capabilities of a broad range of actors in the rural coastal zone. A web-based tool designed for farmers seeking strategies to bolster resilience will be released in the fall of 2027. A regional meeting of project partners is taking place in October in Lewes, DE. The final report will be completed in approximately two years.

3201 VDACS Agriculture & Forestry Industry Development Planning Grant Sherry Dudas

Award of a $34,910 grant to the A-NPDC for the aquaculture and timber/forestry sectors of the Comprehensive Economic Development Strategy was received. Staff coordinated meetings of forestry stakeholders with the VDOF area forester to discuss forestry initiatives, including workforce development and the recruitment of a sawmill operator. This Forestry Advisory

Committee feels that a sawmill is needed and a location in central Accomack would be ideal. Amish/Mennonite sawmill operators and other community members may have an interest in relocating here since the quality and quantity of ESVA timber is high. Members of the Forestry Advisory Committee met with a DE sawmill operator in August, who is deliberating with his community regarding the meeting's discussion. The last Forestry/Timber Advisory Committee meeting was held in October and the Aquaculture Advisory Group had its first meeting in June.

3010 **VBAF Assessment Grants** **Sherry Dudas**

VEDP Brownfields Planning Grants

#1 7194 Lankford Highway, Exmore, VA 23350 & 7194 Lankford Highway, Nassawadox, VA 23413 $50,000

#2 18554 Cassatt Avenue, Parksley, Virginia $50,000

The Planning Grant is for planning and assessment of the two locations and includes site cleanup at the Nassawadox site and environmental data analysis and a reuse plan for the other. A portion of one grant includes a $2,380 A-NPDC administrative fee and $2,375.00 for the other. Exterior clean-up of the Nassawadox site (Elliott Automotive) has been completed. VBAF staff is greatly interested in A-NPDC staff being trained for greater engagement in this program and, to that end, arranged for the A-NPDC to be awarded a $20,000 grant for administrative purposes. A planned kick-off meeting needs to be rescheduled, as the EPA has not relieved funds yet. Also, VBAF has been awarded an EPA $2M assessment grant, of which the A-NPDC will share in the monies and will use for additional property assessments in our project area of the Eastern Shore Rail Trail. A representative of the VBAF program came to the ESVA in mid-October to ascertain interest in the Brownfields program.

3339 **Exmore Comprehensive Plan Update** **Anne Doyle**

Planning work with the Town of Exmore has begun, including required coordination with various state agencies. Interviews with town staff and the Exmore Planning Commission are scheduled for later in October.

Director of Housing Services Report

Below is a comprehensive list of Housing Service Department projects, should you wish to contact the project manager for more information. Details about the featured projects follow the list.

336250- Continuum of Care J. Hope

3661 - HUD-Housing Counseling Services A. Wert

3662 - VHDA HCE Foreclosure/Housing Counseling A. Wert

366250 **Continuum of Care (COC)** **Jen Hope**

The next meeting of Community Partners of the Eastern Shore (CPES) General Membership is scheduled for November 4th. Beginning July 1st Lead Agency duties for the local Continuum of Care moved to the Community Services Board. PDC staff continues to work on associated CPES projects, including the Virginia Homeless Solutions program.

3661 HUD Housing Counseling Services Andrea Wert

The Virginia Housing funding application was submitted on April 30th, requesting $35,049.74 in funding. At the federal level, $56 million in Housing Counseling funding remains the subject of ongoing litigation following the Administration's attempted rescission of the funds. The rescission was stayed by a federal judge, and the matter remains unresolved. Staff will continue to monitor developments and provide updates as the situation evolves. Once the funding becomes available, the new 18-month performance period will be applied retroactively, beginning October 1, 2025, and ending March 31, 2027. In the meantime, program operations and services to clients will continue while the funding issue remains pending.

3662 Virginia Housing Counseling & Education Andrea Wert

Fair Housing, Rental Topics, and Financial Literacy classes continue to be incorporated into Section 8 briefings, providing participants with information on tenant rights, budgeting, and long-term housing stability. Staff has scheduled a Heirs' Property Educational Events at the Planning District Commission office for the afternoon of December 10th. The program is also exploring the possibility of offering an additional Heirs' Property session in northern Accomack County, although identifying a suitable venue remains a challenge. The program continues to expand services addressing property rights and estate planning. These efforts demonstrate the continued need for outreach and the positive impact of the program's expanded focus on addressing Heirs' Property issues across the Eastern Shore.

Director of Housing Development Report

Below please find a list of A-NPDC related Housing Development Department projects, should you wish to contact the project manager for more information. Details about featured projects follow the list.

300640 - Town of Onancock-Northeast Neighborhood	E. Horito
4601 - Wishart's Point Planning Grant (CDBG)	K. Berryman
3801 - Horntown Community Development Block Grant (CDBG)	K. Berryman
3690 - Occhannock Neck Road Project	E. Horito
3823 - FEMA - VDEM Accomack County	E. Horito
4710 - HMGP - DR-4001 & DR-4411	E. Horito
3768 - Accomack County VA 4512-DR-VA-0026 Elevation /Acquisition	K. Berryman
4401 - VDH Septic and Well Assistance Program	E. Horito
3337 - Chincoteague Septic System Program	E. Horito

300640 Town of Onancock - Northeast Neighborhood Eric Horito

Radon testing was conducted on four out of the six homes. The missing homes will be rescheduled. Safari Group is working on three separate proposals regarding the sidewalks and

drainage ditches along Pine Street. Staff has also reached out to two other companies for proposals.

4601 Wishart's Point Planning Grant (CDBG) Kaitlin Berryman

Staff has completed 8 confidential surveys and 2 home inspections, with 5 additional inspections scheduled for the week of Oct 12th. Initial inspections have identified severe housing deficiencies—including black mold, collapsing ceilings, and termite damage—highlighting the urgent health and safety need for substantial reconstruction. Staff is initiating direct mailings to complete surveying for homeowners unresponsive to door-to-door efforts. Additionally, 5 community leaders have been identified as potential "sparkplugs," and staff is finalizing commitments for official Project Management Team (PMT) membership. Upon conclusion of inspections, staff will initiate certified engineering and architectural reports to establish precise construction cost estimates for the 2027 CDBG Implementation Grant $1.5M application.

3801 Horntown Community Development Block Grant (CDBG) Kaitlin Berryman

The $1.4M for 6 substantial reconstructions & 4 demolitions has been approved ($1.25M from DHCD & $150k from Accomack County). Staff is notifying property owners of the award and preparing bid packages. When official documentation from DHCD is received, staff will begin procurement immediately.

3690 Occohonnock Neck Road Project Eric Horito

Two homes are for sale and are listed with Weichert Realtors.

Accomack County VA Hazard Mitigation Program (HMGP)

3823 4291-VA-009 Elevation Project Eric Horito

All paperwork has been submitted. Pending additional information requested by VDEM and FEMA, this project will be closed out shortly.

4710 Accomack County VA HMGP 4401-VA -016 Elevation/Acquisition Eric Horito

This project will be closing out in November. One home was acquired and demolished. One homeowner opted out of the program. The third home was to be elevated, but due to multiple foundation redesigns and delays with FEMA, this home won't be elevated with this grant. VDEM has put this home on the elevation list for an upcoming Hazard Mitigation Grant Program.

3768 Accomack County VA HMGP 4512-DR-VA-0026 Elevation Project Kaitlin Berryman

Staff is conducting outreach to Delmarva & Hampton Roads construction companies to solicit engineering and surveying services.

4401 VDH Septic and Well Assistance Program Eric Horito

This project has been closed out.

3337 Chincoteague Septic System Program Eric Horito

All contracts have been signed, and 19 out of the 21 septic systems have been installed. The final two systems should be installed by the middle of October. Gathering final paperwork from the local health department for the recently completed septic systems. Grant will be closing out on November 1.

7. Grants

3010 VBAF Assessment Grants Sherry Dudas

Since July of this year, A-NPDC staff has been reporting that VBAF (Virginia Brownfields Assistance Fund) staff is greatly interested in staff being trained for greater engagement in this program and, to that end, arranged for the A-NPDC to be awarded a $20,000 grant for administrative/technical assistance purposes. This program is for commercial structures that are abandoned. Someone has a vision of how these structures could be repurposed.

Commissioner Crockett moved to approve the authorization to enter into a subaward grant with VBAF. It was seconded by Commissioner Major. The motion was carried by unanimous vote.

8. Executive Director's Memo

Centers for Medicare & Medicaid Services (CMS) Virginia Rural Health Transformation
Staff has met with Joel Reagan, Virginia Department of Medical Assistance Services (DMAS), and Heidi Hertz, Office of the Governor, to further discuss Rural Health Transformation funding. A-NPDC has been requested to design, stand up and eventually award the rural Eastern Virginia Request for Applications (RFA) process.

Selection Committee. Ms. Hertz has spoken to Hampton Roads PDC, Northern Neck PDC, and Middle Peninsula PDC. They all agreed that they approved of Eastern Shore leading the effort in their rural counties. None of the other PDCs wanted or were positioned to be the lead PDC. Each requested a seat on the award committee. Eastern Shore will select the award committee including the other PDC representatives to make the initial awards.

Administration Planning. Eastern Virginia has been allocated $11.8 million, which may be reallocated by the state after the fifteen day state review of all the recommended awards. A-NPDC will then announce the Eastern Virginia awards. Up to 10% of all the awarded applications will be available to A-NPDC to administer the program. Although initially allocated $11.8 million, DMAS expects that there will be four additional annual allocations of a similar size. Administration costs of A-NPDC are expected to require the hiring of a new staff position to manage the awards. If $11.8 million is awarded for Eastern Virginia, staff thinks it will be

necessary to obtain consultants to assist with portions of the program, potentially including the other Eastern Virginia PDCs.

Commissioner Crockett moved to approve the authorization to execute the Rural Health Transformation contract and amend the organizational chart to include a new Grants Manager under the Administration Department and hire a new staff person. It was seconded by Commissioner Major. The motion was carried by unanimous vote.

Elaine stated there was a SWIFT proposal authorized in August for the elevation of five houses in the Oyster, VA Project. No applications were received. The State then sent the A-NPDC a list of people who had a lot of damage due to flooding in the region. Most are from Accomack County but there are a few from Northampton County. The State wants the A-NPDC to apply for $3,097,314 to start working on elevating or acquiring some of the houses on this list. This would cover approximately 12 houses. The work would not start until next year. These houses were marked as major severe and repeated flood loss damages.

Commissioner Crockett moved to approve authorization to apply for the elevation proposal mentioned above. It was seconded by Commissioner Major, the motion was carried by unanimous vote.

9. Other Matters

There were no other matters at this time.

10. Public Participation

Myra Riley Taylor, from Onancock's Bayside Revitalization, attended a meeting, which was called by SERCAP (Southeast Rural Community Assistance Program), on September 30, 2026. One of the topics discussed was the Horntown Makemie Park area septic systems. The concern expressed was if maintenance was being performed on those systems. Ms. Taylor said an inspection after one year was not conducted by Boggs. Discussion ensued.

Ms. Taylor also asked for a status update for the DEQ funding for systems. She stated application #4 was having problems with sewage being on the ground. Mr. Horito stated A-NPDC was waiting for reimbursement from DEQ funding for $160,000. Ms. Meil said there was an award notification received for 2 systems on Bayside Road. She was not certain which Bayside Road area the awards were named. Elaine would email Ms. Taylor with more specific location information.

11. Next Meeting

The next meeting is scheduled for Monday, November 16, 2026.

12. Adjournment

There was no further business to bring before the Commission. Commissioner Major moved to adjourn the meeting. It was seconded by Commissioner Crockett, the motion was carried by unanimous vote. The meeting was adjourned at 7:40 p.m.
