6. Rural Chesapeake Bay/Seaside of Virginia Working Waterfront Master Plan
Implementation – John Bateman, NNPDC
7. Next steps and meeting

Working Waterfront Steering Committee

Since there isn't a working waterfront overlay in existence, then there are two choices:

1. We bend an existing overlay into working waterfronts, such as technology zone which has a lot of flexibility and can do the trick
2. You will need to develop a bill for the next GA session that creates one. This would be a lengthy exercise as the seafood industry is on high alert with several locally unwanted projects pending and an industry that wants nothing related to local involvement
