

Addendum to the
Eastern Shore of Virginia
Groundwater Resource Protection and Preservation
Plan

Prepared by Accomack-Northampton Planning District Commission on behalf of the
Eastern Shore of Virginia Groundwater Committee

May 2017

Addendum to the Groundwater Resource Protection and Preservation Plan

Source Water Assessment Area

Because the Eastern Shore of Virginia is one of six areas designated as an EPA Sole Source Aquifer, the source water assessment area for the Eastern Shore is designated as the entire district. This includes both Accomack and Northampton Counties and the 19 incorporated Towns in the region.

The map on page 3 and the table that follows display the source water assessment area potential sources of contamination (PSCs).

Potential Sources of Contamination (PSCs)

Addendum to the Groundwater Resource Protection and Preservation Plan
